

# Polar bears!

## Did you know?

Polar bears are expert swimmers.

They can travel great distances without stopping. Unlike other bears, they do not hibernate. Only pregnant polar bears do.

Polar bears are the largest living land predator. They are at the top of the food chain.

Polar bears have short tails and thick fur. They eat meat and dig dens in the snow.

Polar bears have big sharp claws. Polar bears eat seals, walrus and even beluga whales!

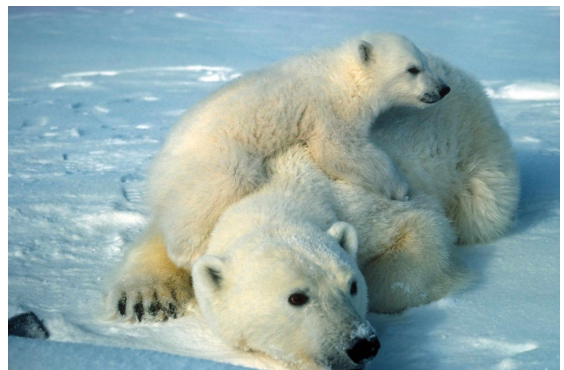

What do I remember? Circle the correct word.

1) Polar bears have short / long tails and thick / thin fur.

2) Polar bears have sharp / short claws.

3) Polar bears eat seals / rats.

4) Polar bears are good / bad swimmers.

Read and circle the correct answer after your grown up reads the question:

short

thick

sharp

bad

seals

good
